

THE PRESIDENT'S COMMITTEE ON INFORMATION ACTIVITIES ABROAD
EXECUTIVE OFFICE BUILDING
WASHINGTON 25, D.C.

May 11, 1960

Dear Allen:

In connection with the Committee's examination of all official U.S. broadcasting operations, we have noted that the U. S. Army is conducting broadcasting activity in the Far East through the Voice of the United Nations Command (VUNC). It would seem appropriate and important that the Committee evaluate this activity as well as other official U.S. broadcasting activities.

While the Committee has been provided the factual data concerning VUNC, it is equally important that we obtain the judgments of those familiar with this activity as to its usefulness and effectiveness. It would be extremely helpful, therefore, if you would obtain whatever comments you feel would be appropriate for the Committee on this subject. I have also asked USIA, State and Defense to furnish similar comments.

Sincerely,

Mansfield D. Sprague

Honorable Allen W. Dulles
Director
Central Intelligence Agency
Washington, D. C.

AT office advised this was taken care of orally.
